Renovation | LAMILUX Glass Roof PR60

Dante Secondary School, Munich (Germany)

Essential info

City / Country:	Munich, Germany
Year:	2018
Object Type:	School Building
Solutions:	LAMILUX Glass Roof PR60

In the course of extensive renovation work, the Dante-Secondary School received a new, highly functional glass roof. The old, aesthetically unattractive construction was removed and replaced by our PR60 construction as an aluminium mullions and transoms system. The glass roof area covers a total of 275 square meters and is double-insulated. Now the atrium of the secondary school is flooded with plenty of daylight and the bright atmosphere created is ideal for festive occasions.
